

WHAT IS CLAIMED IS:

1. A method of providing items required for a complex drug regimen, the method comprising:

disposing a plurality of different drugs in corresponding drug compartments within a container; and

providing drug identification information visually associated with each drug compartment containing a drug.

2. The method of claim 1 further comprising labeling the drug compartments with labels to identify drugs to be taken together.

3. The method of claim 2 wherein at least two of the drugs are intended to be used together, the disposing step comprises associating the at least two drugs with the same label.

4. The method of claim 1 further comprising altering a drug compartment size prior to completion of the disposing step.

5. The method of claim 4 wherein the altering step comprises removing a wall portion of a compartment from the container.

6. The method of claim 4 wherein the altering step comprises adding a wall portion of a compartment to the container.

7. The method of claim 4 wherein the altering step comprises raising a bottom surface of a compartment.

8. The method of claim 7 wherein the raising step comprises adding a false bottom to the compartment.

9. The method of claim 1 wherein the disposing step further comprises disposing a drug delivery tool with a drug in a drug compartment.

10. The method of claim 9 wherein the step of disposing a drug delivery tool comprises placing the drug delivery tool and the drug in an order of use within the drug compartment.

11. The method of claim 1 further comprising arranging the drug compartments in a drug compartment arrangement following an intended order of use.

12. The method of claim 11 wherein the step of providing drug identification information comprises providing drug identification information arranged in an arrangement substantially similar to the drug compartment arrangement.

13. The method of claim 1 wherein the step of providing drug identification information comprises labeling the container.

14. The method of claim 13 wherein the labeling step comprises labeling the instructions on a lid of the container.

15. A kit for a complex drug regimen comprising:  
a kit container comprising a plurality of drug compartments, each drug compartment adapted to contain one or more drugs;  
a plurality of different drugs disposed in the drug compartments; and  
drug identification information visually associated with each drug compartment containing a drug.

16. The kit of claim 15 further comprising at least one label identifying drugs to be taken together.

17. The method of claim 16 wherein at least two of the drugs are intended to be used together and are associated with the label.

18. The kit of claim 15 further comprising at least one drug delivery tool disposed in a drug compartment along with a drug.

19. The kit of claim 18 wherein the drug delivery tool and drug are disposed in an order of use within the drug compartment.

20. The kit of claim 15 wherein the drug compartments are arranged in a drug compartment arrangement following an intended order of use.

21. The kit of claim 20 wherein the drug identification information is arranged in an arrangement substantially similar to the drug compartment arrangement.

22. The kit of claim 15 wherein the kit container comprises a lid, the instructions of use being disposed on the lid.

23. The kit of claim 15 wherein the kit container has a first dimension of about 16.75 inches or less, a second dimension of about 16.75 inches or less and a third dimension of about 6.75 inches or less.

24. The kit of claim 15 wherein the kit container has a first dimension of about 17.25 inches or less, a second dimension of about 12.25 inches or less and a third dimension of about 2.875 inches or less.

25. The kit of claim 15 wherein the kit container further comprises a tab adapted to facilitate removal of the kit container from a mailing container.

26. The kit of claim 15 wherein at least one drug compartment is adapted to be altered in size.

27. The kit of claim 26 wherein the at least one drug compartment comprises a wall portion adapted to be removed from the kit container.

28. The kit of claim 26 wherein the at least one drug compartment comprises a wall portion adapted to be inserted into the kit container.

29. The kit of claim 26 wherein the at least one drug compartment comprises a false bottom to be inserted into the kit container.

30. The kit of claim 15 further comprising a biohazard container disposed in the kit container.

31. The kit of claim 30 wherein the kit container comprises a lid, the kit container being adapted to conceal most of the biohazard container from view when the lid is open.

32. The kit of claim 31 wherein the biohazard container comprises a lid, the kit container being adapted to conceal from view substantially all of the biohazard container except the lid.
